

EQUAL OPPORTUNITIES STATEMENT

Rape Crisis South London (The Rape and Sexual Abuse Support Centre) recognises that in our society groups and individuals have been and continue to be discriminated against on the basis of such factors as age, gender, ethnic group, nationality, race, class, disability, sexual orientation, socio-economic background and religious belief.

We are committed to raising awareness of discrimination and are seeking to ensure that our service is equally available and accessible to all women. We will attempt to meet individual needs where possible.

We are committed to the principles of anti-discriminatory employment practice and recruitment, whether paid or voluntary.

We welcome contact with all people who have been affected by, or are concerned with issues surrounding rape, incest, sexual abuse and sexual assault.
